PROJECTS

AirBnb Clone   [Live](#) | [GitHub Repo](#)

A bare bones clone of AirBnb.

- Create: Easily add new property listings with detailed information, high-quality images, and amenities to attract potential guests.
- Update: Seamlessly modify existing property details, availability, and pricing to reflect any changes or improvements.
- Read: Provide a user-friendly interface for guests to explore a wide range of properties.

Discord Clone   [Live](#) | [GitHub Repo](#)

A full CRUD group based project for a Discord Clone

- Create: Establish servers and channels for different topics, projects, or communities, facilitating organized and purpose-driven communication.
- Update: Allow users to modify server settings, channel permissions, and user roles to adapt to evolving community needs.
- Read: Provide a clean and intuitive interface for users to read messages, view multimedia content, and stay engaged with diverse conversations.

WORK EXPERIENCE

Sales associate   Aug 2021 – Feb 2022

T-Mobile, Keene, NH

I was responsible for assisting customers in choosing and purchasing mobile devices, plans, and accessories, while providing information on T-Mobile's products and services.
- I worked with clients of all ages and groups, I gained many skills including sales and effective social skills needed to keep customers engaged.
- I gained skills involved in working with a POS system and learned how to handle money on a larger scale.

Sales Associate   Aug 2022 – Oct 2022

Walmart, Keene,NH

- I worked in the technology section and sold many products including computers, TVs, games, and sound systems.
- I learned how to be more organized with products and how to make sure things were always where I needed them when it came to selling in a fast paced environment.

EDUCATION

Full stack web Developer Certification | App Academy – Oct 2022 - Oct 2023
